

Usage instructions GOLDEN PEARL Egg Coloring Kit

• Pearl egg dyes:

Boil the eggs in salted water and leave them in it to keep them warm.

1. Put the gloves on and separate each color with scissors.
2. Put the dye container with the top up in a glass with hot water until the dye softens and shake it well.
3. Cut the dye container tip off.
4. Put about 10 drops from the dye on your palm with the glove on and spread well on warm and dry egg. Add 3-4 drops for every other egg.
5. Let the painted egg dry on the drying tray.
6. Clean the gloves with water and dry them after every color usage.

• Egg stands:

Use scissors to cut the egg stands from the sides of the box and assemble them by inserting cutting 1 into cutting 2.

• Drying tray:

Punch out the pre-cut circles from the back of the box and use it as a drying tray.
